Benjamin H. Layno  
Primary Examiner  
Art Unit: 3711

Dear Benjamin,

This letter is a request to revive my patent application. We spoke on the phone a month ago about my issues and you advised me to send in this letter.

Since then, I have moved to a new location and I have not received any new info from the office regarding my patent, but as you suggested here is my letter explaining the situation.

I have recently been under some very serious medical issues. I have had Type 1, insulin dependant Diabetes for 20 years now, and things are starting to go wrong.

I have been hospitalized for weeks at a time with various nerve conditions and also complications with my liver.

The good news is that I am on a new insulin pump, and I am doing much better these days. But the last year or so has been a nightmare, and I was physically unable to give this matter the attention it deserves.

I would really appreciate your help and/or guidance in the re-opening of this patent application, that's assuming it's been closed, I am actually not sure where any of this stands right now, because I have not received any recent notices.

Anyway, here is my new address:

Douglas E. Frisoli  
93 Holmes Rd.  
North Attleboro, MA 02760

And here is my patent application info:

Application No. 10/520,671 ✓

Any assistance in this matter would be greatly appreciated.

Best Regards,

A handwritten signature in black ink, appearing to read "Douglas Frisoli".

Douglas Frisoli
